Cost: NZ\$50 - Price and design may vary as imported from China and subject to availability.

Shoes can be sent back for replacement if they don't fit, however you will need to cover the additional international freight costs. For best fit, you need to work out the length of your longest foot and allow enough room for movement at the end. With normal socks on, place your heel against a wall, and measure out to 2-3 centimetres past the big toe on your longest foot to allow enough room for movement. Once you have worked out the measurement in centimetres, check it against the inside measurement of an existing pair of comfortable shoes.
